

Since Carritech's creation in 2010, our goal has been to reduce the environmental impact of telecommunications networks upon our planet.

Our sustainable business model offers HW/SW support to keep your legacy networks operational and a platform to generate revenue when it is time for it to be deinstalled.

		
 ENABLE	 SAVE	 CONTRIBUTE
Continued End-of-Life support When the manufacturer calls time on your assets, we have the expertise and hardware to support and enable you to continue using legacy networks.	Optimise OPEX & CAPEX Savings We offer support services at a fraction of what OEMs charge. Also, we can help you manage your excess and end of life assets providing you with an income stream.	Fulfil CSR & Sustainability Goals Our Asset Management services allow you to meet and exceed your CSR and environmental goals when disposing of unsaleable assets.

Through our suite of sustainable services, Carritech can help you to reduce your environmental impact and your operational costs while increasing profitability by managing your end of life assets responsibly.

	
 EoL Support	 Asset Management
 SPARE PARTS SUPPLY We support legacy telecom networks to stay operational, through the provision of replacement parts.	 DIRECT PURCHASE We actively purchase equipment from those looking to generate revenue quickly.
 HARDWARE REPAIRS We keep legacy equipment in working order long after manufacturer EoLs, through our comprehensive repair service.	 REVENUE SHARE We partner with clients looking for help to sell their unwanted telecommunications equipment.
 L3 REMOTE TECHNICAL SUPPORT We provide L3 Remote Technical support for those who are looking to troubleshoot and resolve network issues.	 DEINSTALLATION SERVICES Our deinstallation team can assist you in properly managing the removal of your hardware from your network.
